Q2 Please rate yourself according to your vaping experience. The more you feel you are an experienced vaper, the higher you would rate yourself. The less you feel you are an experienced vaper, the lower you would rate yourself. Please mention the vaping combos you use/have used in the comment box below, also naming the atomisers, repairable or not.

Q4 If you have followed the Wave RTA step-by-step Rebuilding Guide for the vertical setup version, on a scale from 1 (extremely difficult) to 7 (extremely easy), please rate how easy the rebuilding procedure is to you, always regarding the vertical setup version. The more you feel the rebuilding procedure is easy for you, the higher you would rate it. The less you feel the rebuilding procedure is easy for you, the lower you would rate it. If you haven't followed the Wave RTA step-by-step Rebuilding Guide for the vertical setup version, please leave that rating box blank.

Answered: 37 Skipped: 5

	1-Not at all easy	2	3	4	5	6	7-Extremely easy	Total	Weighted Average

Q7 We have tried to design the Wave RTA so that there is easy and real time access to the atomising deck and chamber, even with a full tank and functioning setup. On a scale from 1 (extremely difficult) to 7 (extremely easy), please rate how easy it is for you, to access the atomising deck and chamber, even with a full tank and functioning setup. The more you feel it is easy for you, to access the atomising deck and chamber, even with a full tank and functioning setup, the higher you would rate it. The less you feel it is easy for you, to access the atomising deck and chamber with a full tank and functioning setup, the lower you would rate it.

Q12 We have achieved optimal performance for the Wave RTA between 0.9 Ohm and 1.1 Ohm, with 28AWG and 30AWG res wire for both vertical and horizontal setup mode. What is the range of optimal performance for the Wave RTA according to your own tests?

Answered: 35 Skipped: 7

Answer Choices	Responses
Between 0.1 and 0.5 Ohms	2.86% 1
Between 0.5 and 0.8 Ohms	11.43% 4
Between 0.8 and 1.2 Ohms	57.14% 20
Between 1.2 and 1.6 Ohms	22.86% 8
Other	5.71% 2
Total	35

Q13 In general, we think that vaping after all is about the taste, the vapour and the hit. Do you consider yourself a cloud chaser, do you go for the taste, prefer the hard hit, or like a balance? On a scale from 1 (not at all important) to 7 (extremely important), please rate how important each factor (taste, vapour, hit) is to you. The more you feel a factor (taste, vapour, hit) is important to you, the higher you would rate it. The less you feel a factor (taste, vapour, hit) is important to you, the lower you would rate it.

Q14 After trying the Wave RTA with different setups (suggested or not), on a scale from 1 (not at all satisfied) to 7 (extremely satisfied), please rate how satisfied you are with the quantity of vapour it can produce. The more satisfied you are, the higher you would rate it. The less satisfied you are, the lower you would rate it. Also, please add any extra comments below.

Answered: 37 Skipped: 5

	1-Not at all satisfied	2	3	4	5	6	7-Extremely satisfied	Total	Weighted Average
(no label)	5.41% 2	2.70% 1	13.51% 5	21.62% 8	21.62% 8	29.73% 11	5.41% 2	37	4.62

Q15 After trying the Wave RTA with different setups (suggested or not), on a scale from 1 (not at all satisfied) to 7 (extremely satisfied), please rate how satisfied you are with the taste of vapour it can produce. The more satisfied you are with the taste, the higher you would rate it. The less satisfied you are with the taste, the lower you would rate it. Extra tip: Take seriously into account if the taste represents the liquid successfully. Also, please add any extra comments below.

Answered: 37 Skipped: 5

	1-Not at all satisfied	2	3	4	5	6	7-Extremely satisfied	Total	Weighted Average
(no label)	2.70% 1	2.70% 1	8.11% 3	8.11% 3	29.73% 11	32.43% 12	16.22% 6	37	5.22

Q16 After trying the Wave RTA with different setups (suggested or not), on a scale from 1 (not at all satisfied) to 7 (extremely satisfied), please rate how satisfied you are with the hit of vapour it can produce. The more satisfied you are with the hit, the higher you would rate it as hard-hitting. The less satisfied you are with the taste, the lower you would rate it as hard-hitting. Also, please add any extra comments below.

Answered: 36 Skipped: 6

	1-Not at all satisfied - Definitely not hard-hitting	2	3	4	5	6	7-Extremely satisfied - Absolutely hard-hitting	Total	Weighted Average
(no label)	5.56% 2	5.56% 2	11.11% 4	19.44% 7	30.56% 11	22.22% 8	5.56% 2	36	4.53

Q17 We have tried to design the Wave RTA according to Atmizone's simplistic philosophy and also the form-follows-function principle. On a scale from 1 (Not at all appealing) to 7 (Extremely appealing), please rate how appealing the design of the Wave RTA is to you, in terms of appearance. The more you feel its appearance is appealing to you, the higher you would rate it. The less you feel its appearance is appealing to you, the lower you would rate it.

	1-Not at all appealing	2	3	4	5	6	7-Extremely appealing	Total	Weighted Average
(no label)	0.00% 0	0.00% 0	8.11% 3	16.22% 6	16.22% 6	29.73% 11	29.73% 11	37	5.57

Q18 We have tried to design the Wave RTA according to Atmizone's simplistic philosophy and also the form-follows-function principle. On a scale from 1 (Not at all helpful) to 7 (Extremely helpful), please rate how helpful the design of the Wave RTA is to you, in terms of ergonomics. By this, we mean how helpful the function and positioning of the AFCS cap is, how helpful the function and positioning of the LFCS base ring is and how easily they can be accessed and controlled. The more you feel the ergonomics of the Wave are helpful and to you, the higher you would rate it. The less you feel the ergonomics of the Wave are helpful to you, the lower you would rate it.

Answered: 37 Skipped: 5

	1-Not at all helpful	2	3	4	5	6	7-Extremely helpful	Total	Weighted Average
(no label)	8.11% 3	2.70% 1	8.11% 3	16.22% 6	21.62% 8	21.62% 8	21.62% 8	37	4.92

Q19 We have tried to design the Wave RTA according to Atmizone's simplistic philosophy and also the form-follows-function principle. On a scale from 1 (Not at all helpful) to 7 (Extremely helpful), please rate how helpful the design of the Wave RTA is to you, in terms of ergonomics. By this, we mean how helpful the function and positioning of the AFCS cap is, how helpful the function and positioning of the LFCS base ring is and how easily they can be accessed and controlled. Also, by this we mean how helpful the overall design of the Wave RTA is, so as to avoid the excess use of tools and to ensure easy, bare-hand procedures. The more you feel the ergonomics of the Wave are helpful and to you, the higher you would rate it. The less you feel the ergonomics of the Wave are helpful to you, the lower you would rate it.
